

GENERAL ARTS AND SCIENCE - HEALTH SCIENCES

Program Office: 403.394.7338 • generalstudies@lethbridgecollege.ca

The health-care sector is one of the largest and most complex in Canada, providing a broad range of career opportunities from direct patient/client care to related teaching and research. It's so broad that you may have an interest, but not have a clear direction you want to take. The Health Sciences certificate program offers a way for you to explore your interest, gain foundational knowledge and take courses that are transferable to a diploma or degree.

The courses you take to earn your one-year Health Sciences certificate can be applied to six health-related diploma and degree programs at Lethbridge College and to programs at other institutions.

Your Investment

Program fees will vary. To view fee information, go to www.lethbridgecollege.ca/programs (<https://www.lethbridgecollege.ca/programs/>) and select your program.

Graduation

Upon successful completion of all program requirements, students are awarded a General Arts and Science - Health Sciences Certificate.

Successful completion of this program may qualify students for admission into other Lethbridge College programs. Please consult specific program admission requirements.
